

## Sustainable Seacombe Has Arrived

Energy Projects Plus provides free advice and support to help people keep their energy bills down, and to stay healthy and warm at home over winter.

We officially launched our *Sustainable Seacombe* project during a community event held last week at Seacombe Library.

This exciting new project will see our team taking our award-winning advice out into the community, to ensure everybody gets a chance to find out what we can do to help.

This leaflet is to let you know that Namora (pictured below) from Energy Projects Plus will be in your street this week, knocking on doors to engage with residents and offer the full range of our services.

We look forward to speaking to you.

## We're out and about in your local area

As well as knocking on doors, we'll be holding events in venues around Seacombe, such as Seacombe Library (below)

## Free Advice Available

We're bringing this advice into your local area, and we are teaming up with partners (such as Wirral Council's Healthy Homes team, and Involve Northwest's Community Connectors) to make sure you're aware of all the services that might benefit you.

Through the *Sustainable Seacombe* project, Energy Projects Plus is going to be posting leaflets through doors, and providing advice to all residents either at their homes, or at one of our community events. We intend to hold a local community event every week throughout 2019, as well as some larger events together with our partners.

## Come and see us this week

If we don't get a chance to meet you while we're knocking on doors, you can come to see us at the event detailed below.

<b>When</b>	<b>10am-12pm, Friday 25 January 2019</b>
<b>Where</b>	<b>Inspire Coffee Bar, The Spire, Breck Road</b>
